“
**FINDING WILLOW
BROOK BY DAY
WAS AN ANSWER
TO PRAYER**”

A LETTER OF GRATITUDE

Dear Sally and staff of Willow Brook by Day Program,

“Sometimes a family needs that extra special touch that only people who really care can give.”

We know how blessed we are to have found this in each of you who helped us take care of Mom when we were new to Ohio, and caught off guard by the pandemic. We brought Mom here to quarantine with us, but she was a stranger in a strange place. Finding Willow Brook by Day was an answer to prayer!

Thank you for taking the COVID precautions so seriously. It lifted our spirits to know Mom had a safe place to go where she could socialize with other older adults and be stimulated by all the daily activities you provide:

from chair yoga with Marcy, music with Mary, art with Linda, and visits from Faith the therapy dog, every day was a new adventure. And while Mom might not remember the details, she knew she did something fun and must have had something good for lunch because, “I ate it all!”

As a small token of our appreciation, we have something to help take care of your helping hands. This hand cream is not fancy or scented, but it is absolutely wonderful in reviving dry and undernourished skin. We discovered it in Germany and hope you find it as beneficial as we have.

With gratitude for the kind and loving care you give,

Debi and Jon S. and family

Willow Brook by Day clients enjoying some chair dancing as they learn trivia about different eras of famous line dances and pop-cultural dances throughout history.
