## Transitional Living

---

*Making the Willow Brook decision  
brings you peace of mind*

---

## The Problem . . .

- You're not quite sure that she is eating as she should, let alone getting enough liquids.
- You are just about certain that he isn't taking his medicine how and when he should.
- Or maybe you're concerned that the healthy, active one of the pair is being worn down caring for the other and needs a break during the day.
- You know they're okay overnight, but those waking hours are a concern.

*Willow Brook may have the perfect solution for you!*

## The Solution . . .

### Transitional Living

The independence of an apartment, with the security of assisted living . . .

**All private** – Live alone or with your spouse in a lovely, 1-2 bedroom apartment.

**Choice** – several dining locations for three meals a day, seven days a week, included in your monthly rent.

**Flexibility** – Give your spouse an opportunity to do other things during the day but spend your evenings together. Individual interests and needs are taken into account.

**Bring your pet.**

**A helper** is on your wing 12 hours a day.

**Weekly housekeeping** is included.

Gathering places, lounges and rooms for families, activities and worship; outdoor patios, decks and terraces, all available to you as an extension of your home.

Costs are less than assisted living – and couples can continue to live together.

All-inclusive prices – with weekly house-keeping, laundry, medication reminders, and help with personal care all included.

Telephone, Internet, and cable television services and utilities are included.

Top-quality care, in the Willow Brook tradition.
